

QUALITY POLICY

Our vision and mission is to optimize production processes by providing machines and devices designed based on the latest technological solutions.

PMT-Systems specializes in design, production of machinery and production equipment for the Industry, considering the latest safety systems and the highest ecological standards. We make sure that **PMT-Systems** resources allow implementation in a turnkey system offering the design and production of machines and assembly stations.

The tasks we have set ourselves are a comprehensive implementation of projects under individual customer orders, enabling the improvement and optimization of production processes. All projects are based on cooperation with the client, focusing on identifying his needs.

We implement all of the above assumptions focusing on everyday activities on:

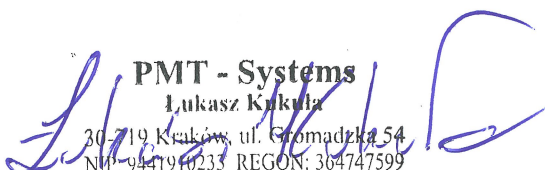

- ✓ Comprehensive running of implemented projects.
- ✓ Building awareness and constant dialogue with Clients, recognizing their needs.
- ✓ Searching for and implementing modern technological solutions.
- ✓ Training and continuous improvement of employees' qualifications.
- ✓ Caring and making our suppliers and subcontractors aware of our expectations and partner cooperation.
- ✓ Constant monitoring of the market by taking actions aimed at adapting the company to changes.
- ✓ Monitoring and compliance with legal requirements and standards applicable to our activities.
- ✓ Maintenance and improvement of the quality management system ISO 9001: 2015.

The above assumptions are implemented by employees thanks to the support of the Owner, who ensures adequate resources to achieve the quality objectives. There are also activities monitoring the functioning of processes, e.g. through internal audits.

**THE ABOVE QUALITY POLICY IS UNDERTAKEN AS MANAGEMENT,
AND ALL EMPLOYEES PMT-SYSTEMS TO ACTIVELY SUPPORT THE FUNCTIONING AND
PERFECT THE QUALITY MANAGEMENT SYSTEM IN ACCORDANCE WITH THE
REQUIREMENTS OF ISO 9001: 2015.**
